GRAND TURN OUT OF REPUBLICANS. Gen

The rally of last evening at the Wigwam was a notable proof that our Republicans are still keeping their watchires brightly aglow, and absting no whit of the enthusiasm which

shall this Government be Disselved!

[From the N. Y. Evening Post.]

It is now pretty well ascertained that the combination to destroy the public confidence and spread commercial rule ever the country has its main spring at Washington and among the advisers of the President. Mr. Secretary Gobb has felt it in the line of his duty to visit, this city and induge in the use of the most incendiary and treasonable language, which is industriously circulated by his co-compirators through the State.

What his design is, and what is the design of the government for which he acts, is variously construed by different parties. We will type one fact which may be relied upon as an indiestion of what may be supposed to be one of their motives. A leading banking-house in Wallington for their bonds, taken in accordance with the conditions of the late ten million loan, and received from the Department of the Treasury for answer, that "they did not wan far received from the Department of the Treasury for answer, that "they did not want the money," etc., etc., that "they did not want the money," etc., etc., that "they did not want the money," etc., etc., that "they did not want the money," etc., etc., that "they did not want the money," etc., etc., that "they did not want the money," etc., etc., that "they did not want the money," etc., etc., that "they did not want the money," etc., etc., that "they did not want the money," etc., etc., that "they did not want the money," etc., etc., that they did not want the money." etc., etc., that they did not want the money." etc., etc., that they did not want the money. Its adherents have followed it so long—it has so long furnished so many sops for its children, that it cannot at ouce be given up. The old Hunkers stand over its dead body and cannot "make it dead." The political dectors of New York, appealed to, prescribe copious doses of fusion "taken hot." The Douglas physicians feel that this will never do. Their specific for its radical cure is Popular Sovereignity, "taken in the right way."

Now, there is not an encomium passed upon Popular Sovereignity that I do not heartily endorse. But there are two Popular Sovereignities is the field. Have the President's advisers and friends determined to indemnify themselves for the loss of effice and patronage which now stares them in the face, out of the public treasury?

We understand that Mr. Cobb has even gone for the charge of stock-jobbing on public credit. We are assured that during his recent official visit to the city he announced it as the settled purpose of the Southern States to make a new government. They propose not separation of secession, but a dissolution of the government is the Henry party to be united in the new or.

I tell you the fire which to save the Union, we must clee Lincoln. We are to-day the stronger government of the world, seated on the ludgment, affection and sympathies of the people, and stronger still if kincoln is decide. The day and the hour is ripe. The time we have waited for so patiently, is at hand, not delayed a day too long, nor coming a day too soon. The Assistant Treasurer at New York was, for the greater facilities in counting, authorized to have about \$2,000,000 of them received, and the Assistant Treasurer at St. Louis upwards of \$150,000 for similar reasons. This re-coinage, however, applies to the original or earlier lasses; which it is known were similer in circumference and thicker than the later and superior coin. Of the former there are now \$9.000,000, and of the latter \$8,000,000 in chrealistion.

On a complaint, a few days since, from Philadelphia, \$0,00,000 of the new dollars were sent from New York to the Mint, whence they were withdrawn, and very many of them again found their way to New York. While the gold dollars are a great convenience in small, found their way to New York. While the gold dollars are a great convenience in small, it is considered that there is a redundancy of them for large transactions, and hence the recent apecial orders in relation to the recoinage. There does not seem to be any purpose so to reduce the amount of this description of coin as to inconvenience the public.

Severe Storm on the Plains.

Sr JOSEPH, Oct. 30.—By the pony express this morning we have advices from Julesburg, 450 miles from here, of one of the most severe storms that was ever known on the Plains at any season of the year. On the 36th it bliew a hurricane, accompanied by hall, until 30-clock P. M., when a heavy show-storm set in, the weather rapidly growing cold. Emigrant trains lined that station on every side, their cattle suffering more than in midwinter. It was thought emigrants below and above-Julesburg would also suffer severely, and that great loss would ensue. The pony express was detained 5 hours in consequence. It is blowing here furiously, and has the appearance of snow, and growing cold.

It would be a matter of sometion to the public to know, before faith in the Times & Herald's distribes, just how much interest the tor of that concern has in the rise of the stock market? This diam has resolved itself into a matter of and cents. Now how many do the "leading Democrat of Chicage stake? Do men who believe in make stock investments while the on? That's the question.

That's the question.

HOW EXPLAINED.

Before this disunion cackle is a will be proved that Mr. Cobb. Mr. an's Secretary of the Treasury, wen York last week on a stock speculathat his efforts to play hear were put money in his purse. We do n how much he may have fobbed been rise; but letters now in this that the amount would make a Secretary comfortable, after the fashion, for the rest of his days. Democracy ends its days more inglithan was expected; but as stea been the fashion during the whole Buchanan's term, there is no reas swindling should not be added at it.

UNEXPECTED HEBUST.

UNEXPECTED REHUX.
Two noticeable extracts, in the tellic column, from the Charleston papnot, we hope, escape the attention readers. They will shame the dou of the North, if hothing else can state of semi-decency, from which, discussion of political affairs, they widely departed. Charleston unque bly believes in disunion; but, thou torous, she has yet a commendable the good name of all American, are glad that two of her principal juare thought fit to rebuke, even mildly, the servility that the Josh of New York are willing to display make of the profits on dry goods, is again; they deserve it!
